CSIS 1280 - Final Project

You are required to develop a website with a minimum of four pages on a topic of your choice. The project will be developed gradually during the term with the complete project due by Week 13 (Dec 4, 2020). You will keep on adding the features learnt in the class to your project.

Rubrics for Checking Project

Student Name:			
Criteria	Maximum Points	Points Given	Remarks
1. Completeness • 5 – Project contains all the required specifications • 4 – One specification is missing • 3- Two specifications are missing • 2- Three specifications are missing • 1- More than three specifications are missing • 0- No specifications were fulfilled	5		
2. Navigation • 10 -Navigation are clearly labeled and allow the user to easily move to another page. • 8 – One navigational link is not clearly labeled and not that effective in guiding users. • 6- Two navigational links are not clearly labeled and not that effective in guiding users. • 4- Three navigational links are not clearly labeled and not that effective in guiding users. • 1- More than three navigational links are not clearly labeled and not that effective in guiding users. • 0- No navigational links were working.	10		
3. Originality • 5 – The Website clearly reflects originality and not copied from another source. All content that were not original were cited. • 4 – The Website is not so original as there are some aspects that is copied from an outside source. Some citations missing. • 3- 50% of the page is not original and there are some citations missing. • 2-70 % of the Website is not original, and citations are missing. • 1-Only 10 % of the Website is original, and citations are missing • 0- No specifications were fulfilled	5		
3. HTML and CSS Coding •20- Codes were free from error and neatly done with ample documentation (comments). • 18-There are 1 to 3 errors in the codes or not all codes were documented • 15-There are 4 to 8 errors in the codes and not all codes were documented	20		

|			
• 12-There are 9-12 errors in the codes and not all codes are documented • 9-There are 13-15 errors are in the codes and not all codes are documented • 5-More than 15 errors are in the codes and not all codes are documented • 0-All codes were wrong and not working			
4. Graphics and multimedia • 10- Graphics are related to the theme or purpose of the site, are of high quality and enhance reader interest or understanding. • 8- One graphic shows poor quality • 6- Two graphics shows poor quality • 4- Three graphics shows poor quality • 2- More than three graphics shows poor quality • 1- Only one graphics is presentable and reflect quality • 0-No graphics were appropriate and shows good quality.	10		
5. CSS Layout and Design • 20- The web site has an exceptionally attractive and usable layout. It is easy to locate all important elements. White space, graphic elements and/or alignment are used effectively to organize material. • 16- One element was not designed properly • 12- Two elements were not designed properly • 8- Three elements were not designed properly • 4 – More than three elements were not designed properly • 2- Only one element was designed properly. • 0-No element was designed properly	20		
6. JavaScript (Loops, Array, Conditional, Events and Styles) • 20- JavaScript usage were appropriate. The desired output is correct. • 16 – One JavaScript requirement is out of place or ineffectual • 12- Two JavaScript requirements is out of place and ineffectual • 8- Three JavaScript requirements is out of place and ineffectual • 4 – At least one JavaScript requirements is working and functioning properly. • 0- No JavaScript was working	20		
7. Proper Documentation of the Project • 10- Project report and other documents are done properly. • 8- One project document requirement was not fulfilled • 6-Two project document requirements were not documented • 4-Three project requirements were not documented • 2-Only one requirement was documented • 0-No documentation at all	10		

Note:

The marks will be deducted if any online content management system (like WordPress) or webpage editor (e.g., Dreamweaver) is used in your project.

Project Report Specification

Project Report (Minimum 10 pages) should to be submitted along with the Final Project. It should include the following:

1. Title of the Project
2. Brief description of the project
3. Wireframe
4. Sitemap (See Example)

5. Structure of each webpage
6. References
